ABOUT ME

I'm an Electrical-Electronics Engineering student eager to learn in various fields. I'm confident in teamwork and believe I can bring fresh perspectives to engineering challenges. I'm seeking a job that fosters personal growth in a dynamic environment.

SKILLS

- Project Management
- Team Player
- Data analysis
- Artificial Intelligence

LANGUAGES

- English C1
- Turkish Native

WORK EXPERIENCE

INTERN AT TURK TELEKOM 09.2023-10.2023

Network Management Center

I studied at Turkey's largest network management center, gaining in-depth knowledge of advanced network systems, architecture, various network devices, and protocols. I am committed to staying updated on the latest network technology while maintaining proper language usage

UNIVERSITY CLUB: IEEE 2022-Present

Design Team Member

We have a dedicated team that specializes in addressing design-related matters within the club. This team is responsible for creating posters, Instagram posts, and managing various event designs.

PUSAT MODEL SATELLITE 2022-2023

Electronic Subunit Leader

Designed and tested the electrical subsystem, integrated hardware, and developed a real-time sensor data display UI application for our CanSat competition entry. Contributed to embedded programming tasks using communication cards, microprocessors, and multiple sensors.

EDUCATION

MARMARA UNIVERSITY

Electrical-Electronics Engineering
2021-2025

CERTIFICATES

Manchester Kaplan Language School
07.2022-09.2022
